### If You Plant It, They Will Come

Presented by Randi Eckels, PhD  
Thursday, June 2, at 7:00 PM  
Cranford Community Center

Butterflies, pollinators, birds, and other wildlife rely on native plants to survive. Randi will discuss the importance of supporting native wildlife in our gardens and how to attract them to our gardens.

### Community Volunteer Day

Thursday, June 9, 4-6 PM  
Hanson Park, 38 Springfield Avenue, Cranford

Trustees will be sharing their knowledge of the benefits of the various plants in the park and how you can incorporate native plants into your home garden. Come help spruce up the park!

We ask our volunteers to bring their own reusable water bottle to stay hydrated and work gloves if you have them.
